

Community Resources

1-888-342-4822

The Alberta Indigenous Virtual Care Clinic serves individuals identifying as First Nations, Inuit and Metis, and their immediate family members.

This service is ideal for patients who do not have a primary care provider or those who would like to avoid a wait to receive a consult for a non-urgent issue.

Patients and their caregivers can receive consultations by their phone or through their computer with Alberta based physicians experienced in delivering culturally safe health care and wellness support.
